**WAVESTREAM TO PRESENT AT THE BANK OF AMERICA  
38TH ANNUAL INVESTMENT CONFERENCE**

**SAN DIMAS, Calif.** – September 11, 2008 – Wavestream announced today that Chris Branscum, Chairman and CEO, and Francis Auricchio, EVP and Chief Operating Officer, will present at the Bank of America 38th Annual Investment Conference on Tuesday, September 16, 2008 at 8:30 a.m. PT at the Ritz Carlton - San Francisco, California.

As one of only a handful of non-publicly held companies invited to participate, Wavestream will present at Bank of America's Private Company track on Tuesday, which focuses on Technology Companies. The yearly event, which hosts senior executives from over 150 companies in targeted sectors, has come to be regarded as one of the most highly anticipated investment forums by leading equities issuers and institutional investors.

**About Wavestream Corporation**

Wavestream develops and produces high-power solid-state amplifiers that meet the needs of today's communications systems. Wavestream's revolutionary spatial power combining technology enables higher amplifier output powers in smaller packages with greater efficiency and lower cost than previously possible. Wavestream offers industry-leading Ka-band, uplink C-band, tropo C-band and Ku-band SSPAs or BUCs for satellite uplink and tropo-scatter communications. At Wavestream, we are bringing solid-state solutions to commercial, defense and homeland security systems requiring power, efficiency, and value.
